Bringing  
Joy of  
Smart  
Packaging

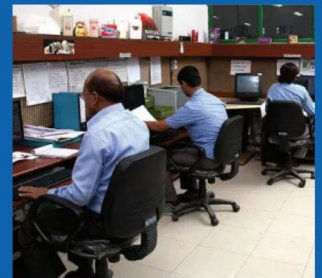

Kapsons Packaging Co. is a one stop solution provider for special colour offset printing upto 8 colours with online UV coating along with big sheets size printing machines facility. We are equipped with all in-house facilities that include sheetfed & heat-set web offset machines, coatings, laminations, die-making, die-punching, corrugation (full finishing line), fully automatic side-pasting machines and programmable cutting machines.

## Our Infrastructure & Facilities

We have the latest machines and our infrastructure is equipped with high end production units to cater to the customers needs.

# WHO WE ARE

Kapsons Packaging Co. is one of the leading international Print & packaging company in INDIA, with a long history and good reputation. Equipped with advanced technologies and professional expertise, Kapsons Packaging Co. is able to offer quality printing services - Total Printing & Packaging Solutions, to cope with the different needs of our customers. Our vision is to deliver innovative and cost-effective packaging solutions to our customers through outstanding customer service. We benefit our customers by enabling them to ensure their products are cost-effectively protected in transit and storage by providing an extensive product range, single source supply, just-in-time delivery.

Our simple rule at Kapsons Packaging Co. is: We do the "hard to do." We create packaging solutions that meet your particular needs, no matter how complex, with quality built in from start to finish. Our in-house manufacturing operations design, manufacture and assemble custom-designed packaging solutions for customers looking for cost-effective methods of protecting higher-value products in storage and transit. Our manufacturing operation serves the industrial, commercial markets which include Electronics, Pharmaceutical, Personal Care Products, agricultural, automotive customers and among others.

# PRODUCTIVITY

Our printing unit is equipped with large format offset printing machines from KBA, Germany. A single large format KBA RAPIDA 105 offset machine can print about 12000 sheets per hour. Our coating machines can handle the same format sheet sizes at a speed of about 12000 sheets per hour. Our rigid box making machines can create boxes to any size up to 12" x 12" x 3". We use Smurfit Kappa boards for all rigid boxes boards that we make. Quality is assured if high quality materials are used in manufacturing. Our skilled staff makes it a point that most of the production is completed on schedule. Running to double shift at the production plant, we have the capacities to complete any complex production job within record time. This is made possible by the staff members as each stage of the job is detailed to every department before the job goes into production.

# OUR VISION

We offer creative solutions to marketing needs and understand your business needs across a wide range of design & advertising solutions. We offer our clients the most effective angles to approach their marketing needs and effectively build their brand. We offer a truly octagonal marketing experience, from client service to the final product. One of our priorities is to achieve excellence in customer satisfaction and superior business results. It is our firm belief that, our employees and suppliers hold critical roles in our quality mission. Therefore, we will retain and attract the best employees and choose suppliers with equal rigor in quality.

## OUR MISSION ►

The aims for the future are to expand our product base, to grow and develop the business and its people, while maintaining the high standards that have helped to build the company into what it is today. We aim to continue to be a positive contributor to our economy and the community while respecting environmental issues. We seek to become a trusted partner of all our clients. We attempt to inspire them with our capabilities, providing an advanced environment that boosts their business performance. We will continue to offer cutting-edge solutions and the highest quality of business processes within the fastest turnaround times with utmost determination. With our persistence and unwavering focus, we continue to work dedicatedly to understand the needs of our customers with mutual respect and care, and act with utmost integrity in everything we undertake. Our goal is to provide you with the best quality printing and packaging awareness you need to transform for your business.

## TECHNOLOGY ►

Keeping abreast with the latest changes in the industry is very important. The latest KBA 105 printing machines are installed at the press floor. All jobs are printed through CTP (computer to plate) printing process which gives excellent print results. The CTP process with FM DOT ensures that we get the finest resolution and print fidelity as it gives superior dot reproduction for precise print management and brilliant color reproduction. We strive to keep our printing processes as “green” as possible. Our inks are non-toxic, vegetable-based, and we print without the use of alcohol in the fountain solutions of our presses. Alcohol is a traditional wetting agent in printing, but we have eliminated it because it releases harmful volatile organic compounds (VOCs) into the air. Through our upgrades, we have significantly cut the amount of press solvent used by our company. Aqueous and UV coatings are done through the most eco-friendly coaters that enable us to get precise coating weight on each sheet through Anilox rollers. This enables us to get the same quality and feel for any number of sheets. Technology does make a vast difference in the quality of a product. We pledge to satisfy our most valuable asset, our customers, with the upmost sense of professionalism, efficiency and competence.

# OFFSET PRINTING TECHNOLOGY AND PROCESSES

## PRE-PRESS

The pre-press processes followed at Kapsons are geared to take care of all procedures that occur between the creation of print layout and the final printing. These include:

- ✦ Material check for paper quality and texture quality
- ✦ Check for bleed-marks, final file size, CMYK colour consistency and cropping
- ✦ Colour and Media Specification Approval

Some of the key facilities available in our pre-press unit include:

- **High-end Scanners**  
To help you obtain higher degree of colour accuracy and precision.
- **Well-equipped End Work Stations**  
We have installed high-end Macs and PCs with original software of latest versions, to ensure a continuous distribution of workflow.
- **Digital Proofing**  
All our proofers can print with resolution upto 1440 dpi.
- **Colour Management System**  
For maintaining Colour consistency and standardization throughout the prepress and printing process.
- **Ink Management Software**  
For supplying digital ink profiles to the printing press that cuts down production time.
- **CTP Using Thermal Plates**  
To imprint first generation dots on plate and produce sharper images.

## PRODUCTION

With years of experience, we are capable of delivering to all client requirements, with high quality printing in minimum possible time. Some of the key facilities available in our production unit include:

- ✦ Printing upto 30x40 inch
- ✦ Paper thickness 70-400 GSM
- ✦ All type of printing & Special effects

## POST-PRESS

Post-press is where a printing job comes together, in a coherent sense. At Kapsons, we are as careful about those final, deft touches as we are about the big picture. Our post-press includes the following facilities:

- Dispatching abroad or pan-India
- Sorting each unit according to client specifications
- Special dispatch using core or bubble-wrap

Some of the key facilities available in our post-press unit include:

### Finishing

To complement our printing, our team of trained operators render good-quality cutting, folding, collating and sewing. To facilitate this we have following facilities:

- BOPP, PVC and Matt Lamination
- Thermal and Cold lamination
- Automated Cutting facilities
- Spot UV and Varnish

### Binding

Kapsons has tied up with a wide range of binderies that offer quality binding services, in line with the expectations of our customers. Types of Binding we cater to:

- Perfect
- Saddle Stich
- Hand Bound
- Back to Back Pasting
- Wiro
